

You've Got To Get On Your Way

(Am - G - C)

There is that voice in your head
It is driving decibels red
You've got to drown out the noise
You've got to maintain your poise

(Am - F - C - Dm)

You've got to get on your way
You've got to get on your way
It don't make no never mind anyway
You've got to get on your way

They'll dangle swords overhead
And expect you to dance for your bread
You've go to toss out the script
You've got to give them the slip

CHORUS

INTERLUDE: (G - F - Am / G - F - C - Am / G - F - Am / G - F - C ...)

They capture lightning in a jar
Bottled up like a voice from afar
You know they know who you are
But you know they left the door ajar

CHORUS

INTERLUDE
